NEW OSS SCHEME (ONE STOP SHOP)

The OSS (One stop shop) scheme is the new arrangement for distance sales made to end consumers resident in the European Union (subjects without a VAT number). Having entered into force from 1 July 2021, it provides for the application of VAT on the destination of the goods, namely the country of residence of the customer who made the purchase. Any price differences to the final consumer are determined by VAT variations of the various European states. The VAT rate will be calculated when preparing the quote that we will send to the customer.
